

Netezza Product Education At Enzee Universe

Following increased demand for product training, Netezza has extended the user conference training program and waived the course fees. **This represents a savings of between \$325-\$1,950 for attendees of Enzee Universe** (depending on the course selected). There is limited availability in these courses, so be sure and visit www.enzeeuniverse.com to register for Enzee Universe and select your specified training courses today.

Best Practices with Netezza –
led by David Birmingham,
author of *Netezza Underground*

COURSE	
Best Practices with Netezza	FREE for attendees of Enzee Universe
<p>Description & Objectives:</p> <p>Due to the success of last year's Best Practices panel discussions moderated by David Birmingham, we're bringing him back to host a longer and more extensive Best Practices forum this year. During this half day session prior to the official start of Enzee Universe 2010, David Birmingham will share insights and best practices on the topics below, and will then open each for discussion and Q&A:</p> <ul style="list-style-type: none"> • Migrating an Existing Data Warehouse to Netezza – success strategies and pitfalls to avoid • Super-charged Data Models – how Netezza's performance can simplify your data model and the ETL that loads it • Holistic Performance Planning – the whole is greater than the sum of its parts • Flexible Hierarchies, Dynamic Alignment, Snapshot Fact Views – Netezza makes the impossible possible • How-to Examples – a solution storyboard • MViews, Views and Aggregations • ELT How-to's – upserts, load-ready scenarios, creative CTAS scenarios • Recovery – ELT multi-table commit, rollback, auditing • Data Intake and Staging Strategies • Schema Switching, Replica Tables • Data Management, Horizontal and Vertical Partitioning, High-traffic Denormalization 	

Wednesday June 23, 2010 - Friday June 25, 2010

Netezza Data Warehouse
Appliance Usage

COURSE	VALUE	
Netezza Data Warehouse Appliance Usage	\$1,950	FREE for attendees of Enzee Universe
<p>Description & Objectives:</p> <p>This course will teach students database administration of the Netezza data warehouse appliance. The Netezza Data Warehouse Appliance Usage course is designed to give the student an overview of the Netezza data warehouse appliance architecture and provide a working knowledge and understanding of the Netezza database features and best practices. The Netezza Data Warehouse Appliance Usage course will provide an overview of Netezza's high availability architecture and administration. Students will be able to administer the Netezza appliance, configure client connectivity, create users and groups, create databases and tables, determine optimal distribution methods, load and unload tables, generate statistics, analyze query performance and plans, create materialized views and backup and restore the Netezza system.</p>		

Wednesday June 23, 2010 -

Advanced Analytics
Inside TwinFin i-Class

COURSE	VALUE	 ENZEE UNIVERSE 2010 USER CONFERENCE
Advanced Analytics Inside TwinFin i-Class	\$1,300	FREE for attendees of Enzee Universe

Description & Objectives:

Advanced Analytics Inside TwinFin i-Class is an intense, two-day immersion into the world of compute-intensive analytics as defined by Netezza. This hands-on, comprehensive experience will give you the knowledge and confidence to attack your most difficult analytic challenges. Topics include analytic executables (our new programming paradigm for advanced analytics), shared libraries support, expanded languages (R, Java, Python, Fortran), matrix operations, our plug-in to the popular Eclipse IDE and a few other topics not publicly announced yet. At the end of this experience you will understand how to use Netezza for analytics and why it is the only environment you will need.

NEW OFFERING EXCLUSIVE TO ENZEE UNIVERSE

Wednesday June 23, 2010 -
Thursday June 24, 2010

Mantra Basics

COURSE	VALUE	 ENZEE UNIVERSE 2010 USER CONFERENCE
Mantra Basics	\$650	FREE for attendees of Enzee Universe

Description & Objectives:

This course is designed to provide an overview of Mantra's capabilities, including:

- Discovery – automatically find sensitive information by identifying your data assets and categorizing their content
- Policy Management – easily create and maintain compliance controls and security policies
- Reports & Workflow – provide your organization with critical visibility and auditors with consistent, standardized compliance reports

NEW OFFERING EXCLUSIVE TO ENZEE UNIVERSE

Wednesday June 23, 2010

R Modeling for TwinFin i-Class

COURSE	VALUE	 ENZEE UNIVERSE 2010 USER CONFERENCE
R Modeling for TwinFin i-Class	\$325	FREE for attendees of Enzee Universe

Description:

Learn how to use TwinFin i-Class for scaling up the R language.

Objectives:

In this class, you'll learn how to use R to create models using huge data and how to create R algorithms that exploit our asymmetric massively parallel (AMPP®) architecture. Netezza has seamlessly integrated with R to offload the heavy lifting of the computational processing on TwinFin i-Class. This results in higher performance and increased scalability for R. Sign up for this class to learn how to take advantage of TwinFin i-Class for your R modeling. Topics include:

1. R CRAN package installation on TwinFin i-Class
2. Creating models using R on TwinFin i-Class
3. Creating R algorithms for TwinFin i-Class
